Carrington Products  
Custom Bending and Rolling

## CARRINGTONS CUSTOM BENDING AND ROLLING

## **CARRINGTON PRODUCTS**

### **Company Profile**

Carrington Products is a family owned company that has been specialising in Tube Bending since 1946.

From humble beginnings at Lane Cove, Carringtons has grown to be a multi faceted business. Our products are distributed Australia wide from our factory and warehouse in Riverstone NSW.

We carry an extensive range of stock bends and fittings in Copper and Stainless Steel, from 3/8 inch to 8 inch (9.53mm to 203.2mm). We are also distributors of Stainless Steel tube, pipe, round and flat bar.

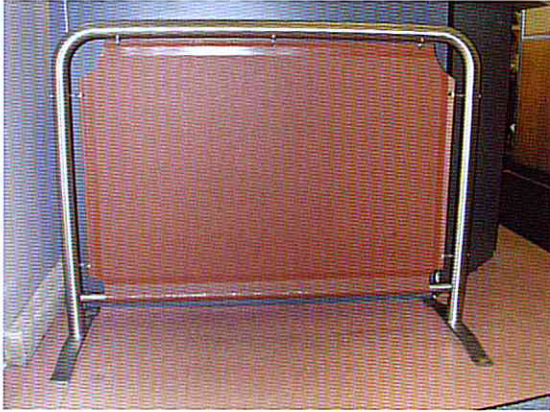

Custom bending and rolling is the heart and soul of Carringtons. From large ongoing contracts and small one off jobs we are well known in the industry for our timeless quality and renowned service .

As a long established business, our customers requirements are what we all focus on. We have a great depth of knowledge and understanding and the skills and equipment that enable us to meet your needs.

## MANDREL BENDING GALLERY

## MANDREL BENDING

Carringtons offer mandrel tube and pipe bending to customers requirements with one of Australia's largest range of mandrel bending tooling and machine capacities.

We bend Stainless Steel, Aluminium, Copper, Brass, Bronze, Gal, Mild steel, Chrome Moly, Duplex, Titanium Alloy.

Our machines can bend tube/pipe from 9.53 mm to 203.2mm or 3/8 to 8 inch in the old scale.

We'll source and supply or bend Customers material.

With our knowledge and experience in the industry we can bend to your drawings, sketches, templates or samples.

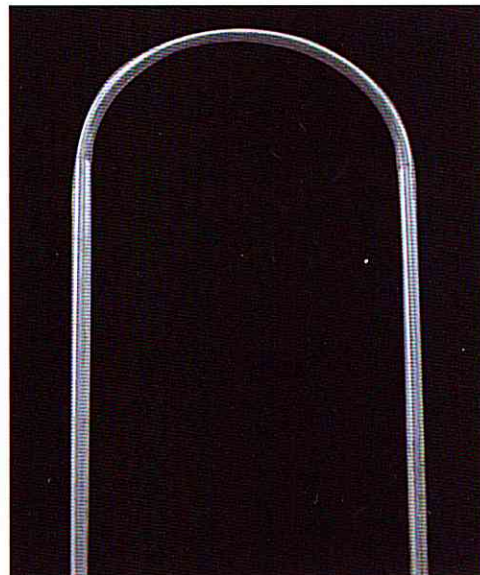

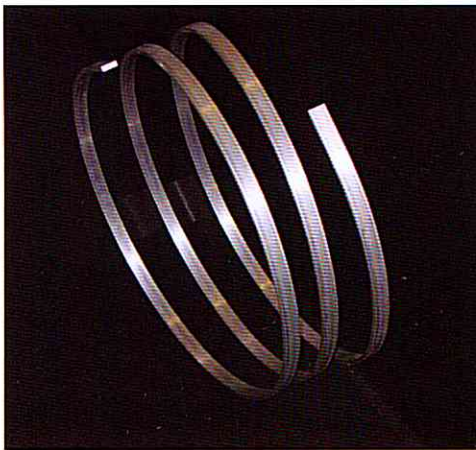

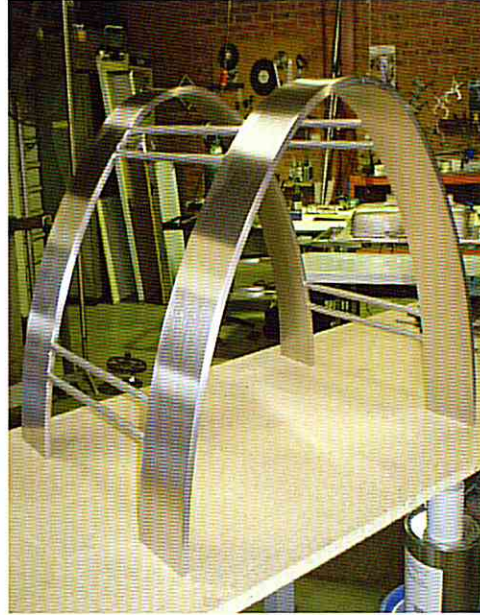

We aim to provide the best quality and quick turn around for all jobs ranging from small one off bends to large ongoing contracts.

Please contact us for a full rundown of our mandrel bending capacities.

## CUSTOM ROLLING GALLERY

## CUSTOM ROLLING

If it's rolling you need we have the knowledge and experience to make the most of our impressive range of machinery and tooling.

We can roll Tube and Pipe, Square tube, Solid bar, Flat bar, Angle and RHS in various metals and alloys.

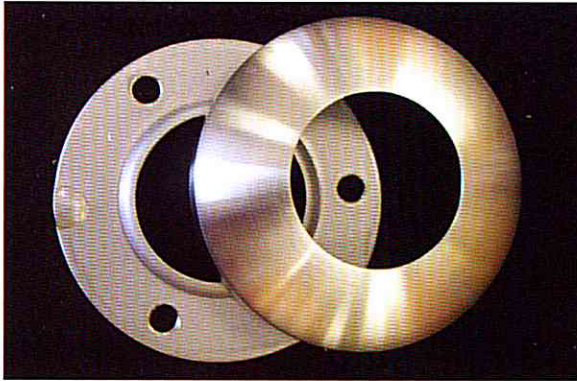

Our machines can roll sizes ranging from 12mm to 101.6mm or ½ to 4 inch in the old scale.

While handrails and grabrails are the most common request we can also roll a variety of coils including pancake coils, spiral coils and concentric coils.

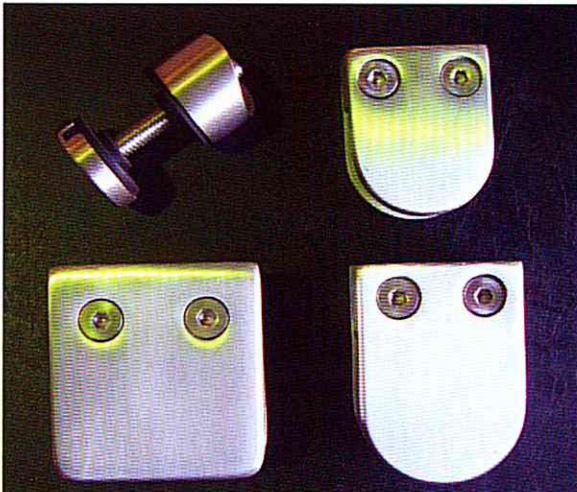

## HANDRAIL ACCESSORIES

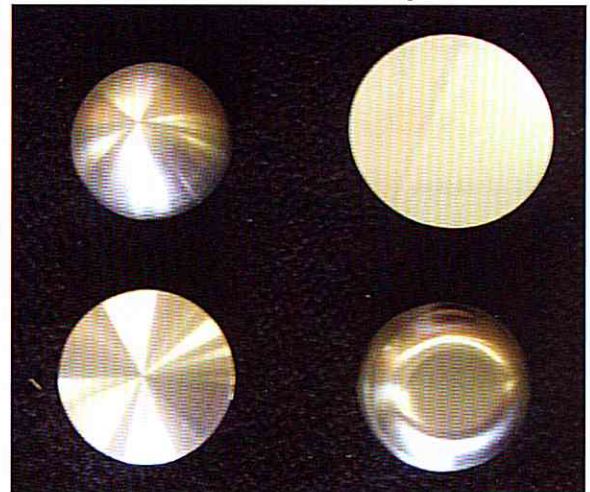

Base & Cover plates

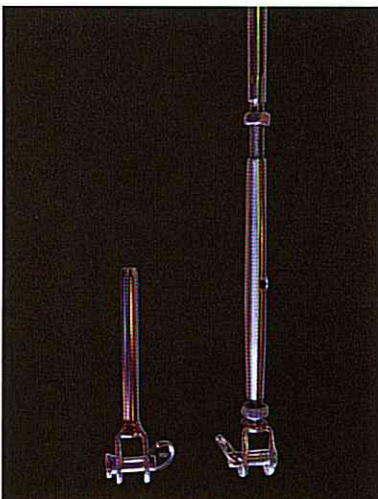

Brass Handrail Fillings

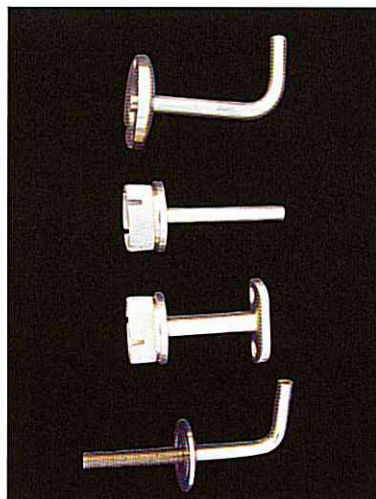

Glass Clamps

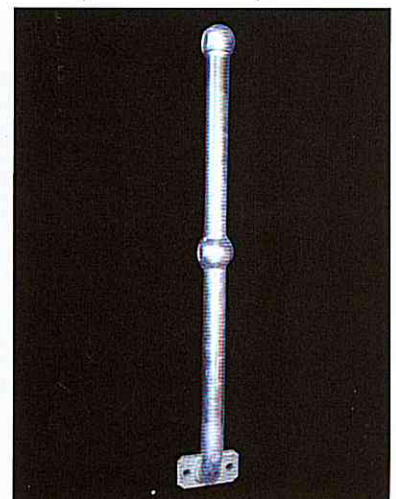

Weld on and push in end caps

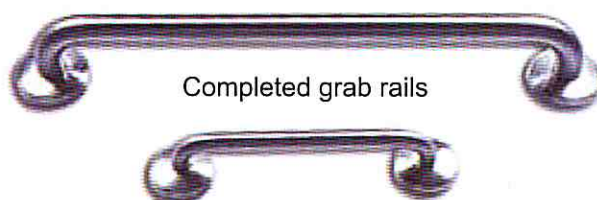

Turnbuckles

Hand rail mounting brackets  
& pole converters

Pipe upright

Completed grab rails

## HANDRAILS AND HANDRAIL ACCESSORIES

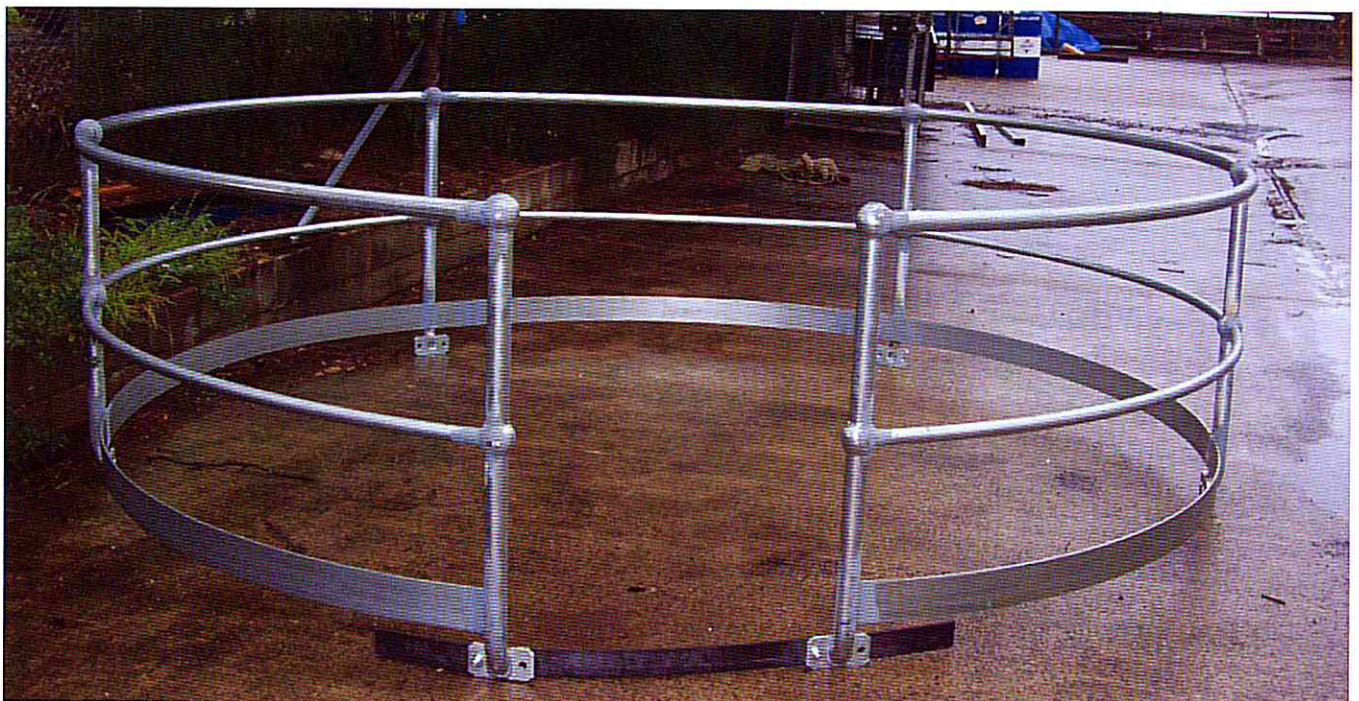

Our capabilities when it comes to handrails are extensive. We will roll and bend rails to your dimensions, drawings or templates.

To compliment them we carry and supply a broad range of accessories for Handrails in Stainless Steel, Brass and Pipe. Our range includes:-

- Handrail Mounting Brackets & Pole converters
- Concealed Flange – base and cover plates
- End Caps Domed and Flat - push in and weld on
- Glass Clamps & Adaptors
- Pipe Stanchions
- Wire Cabling - can be pre swaged
- Turnbuckles & Bottle screws
- Fasteners

### **Welding of Rails and Fittings**

For your convenience we can do some light fabrication such as welding on base and cover plates to your Handrails, Grab rails, Shower rails etc.

## OTHER CUSTOM SERVICES

Carringtons offers a range of other customised services to compliment the tube bending and rolling.

### **Tube Cutting and Scalloping**

We have the facilities to cut tube and pipe to lengths that suit your requirements. We ensure all cuts are square and all burrs removed ready for application.

We can also scallop tube ends to make welding onto round tube easier. We can supply tube cut to your handrail size/height with one end scalloped ideal for uprights on handrails.

### **Tube and Pipe Polishing**

We can polish (linish) Stainless Steel Tube and Round bar sized from 10mm to 76mm and Pipe sized from 8NB to 65 NB to a No. 4 Satin finish.

### **Qualified Experienced Toolmaker and Workshop**

Though our range of tooling is extensive, if we don't have the radius your looking for, we can make tooling to suit your requirements and our machines.

Other services we offer include Powder coating, Polishing and Chrome plating.

## WHY COME TO US?

At Carringtons we source and supply, polish, bend and roll materials (including chrome moly, duplex and titanium alloy). We also carry tube/pipe, stock bends and handrail accessories. This saves you time, travel and money sourcing from individual suppliers.

Our years of experience in the industry and huge tooling/machine capabilities mean we can do your job how you want it done.

Why waste time waiting for a quote from a company that doesn't have our capacities? We have the tooling you're looking for and the knowledge and machinery to get it done.

At Carringtons customer service is important.

- We offer prompt quotation and on time delivery.
- We are willing to work with you on research and development and source and supply issues.
- Our customers find we are easy to work with.
- On time deliveries mean on time installations and less down time.
- You can benefit from our depth of knowledge and years of experience to get your job done.
